## PATHWAYS TO PROGRESS: THE TWO-GENERATIONAL MODEL

- Parents and Children Together is made up of partners dedicated to serving children that have been identified as being at risk for developmental delays or having a specific diagnosis and offering services with typically developing children in inclusive settings when possible.
- Given the alarming statistics about the number of children and families at risk in the community, PACT services are vital.
- This partnership will provide specialized and evidence-based services to help children and families gain access to the resources and parent support they need.

United Way of the Greater Triangle supports 17 Collaborative Partners focusing on Youth Success (Y), Early Childhood Success (E), and Stable Homes (S).

Together we are #getting2YES.
